

EMS AUDITOR CONVERSION COURSE – 1 DAY DURATION

COURSE OBJECTIVES

To train QMS internal auditors in the skills required to perform EMS internal audits.

BENEFITS

ISO 9001 and ISO 14001 both contain a requirement to perform internal audits to ensure that the documented systems are operating effectively.

More and more organisations now have systems which are registered to both ISO 9001 and ISO 14001 and are seeking to reduce the impact of performing multiple audits.

This course is designed to provide the extra knowledge and skills that will be needed to allow existing QMS auditors to also perform EMS audits.

WHO SHOULD ATTEND?

Existing QMS internal auditors who have experience of performing audits.

IN-HOUSE COURSES

This course can be tailored to meet your organisation's needs and held on your premises or at a suitable venue of your choice.

THE COURSE INCLUDES

- Review and understanding of EMS internal audit requirements
- Overview of ISO 14001 requirements
- Pollution prevention
- Identification of environmental aspects and impacts
- Planning and performing an EMS audit
- Raising non-conformities
- Reporting audit findings
- Effective follow-up and close out of non-conformities

CONTINUING PROFESSIONAL DEVELOPMENT (CPD Points)

Completion of this course will qualify for 7 CPD Points.

CERTIFICATION

All delegates will be awarded a certificate verifying attendance and completion of the course.
